John Welsh  
4780 Bonair Street  
Holladay, UT 84117

Dear Mr. Welsh:

I inspected the reshaping work done on the North Shivwits project on May 7 and May 12. The earthwork was found to be acceptable, although large scars are still evident. A fire burned over the North Shivwits project area during the week of June 22, and the BLM will be reseeding the area this fall and winter, so you are not required to do any seeding.

The South Shivwits project was inspected in December 1997. I originally requested you close the access road, but our biologist has determined the road should be left open. Therefore, no reclamation work is needed on the South Shivwits project area.

This notice file (UTU-66871) will remain open until the road in the North Shivwits project area is acceptably reclaimed. Future work on these sites, exceeding casual use, will require you to file a Notice or Plan of Operations as specified in 43 Code of Federal Regulations Part 3809.

If you have any questions, please contact me at 435-688-3205.

Sincerely,

Larry Gore  
Geologist
